13/14 March 2025 Rovaniemi (7030-7077 minus 3 poor frames, 10s exp). A fuzzy flipanthelic arc. Interesting how poorly distinguished the Parry arcs are (I suppose both of them should be present). At the Ylikylä snowdump right next to the guns.

2/2 - 2025-05-27 06:09 UTC

13/14 March 2025 Rovaniemi. Max stack.
