2/2 - 2026-01-23 14:03 UTC

Here is a photo I took at 14:02 from Anttilanvaara, which is pretty much diametrically opposed to the webcam relative to the Suosiola plant. Webcam shot at 14:00 for comparison.

A layer of fog is present above the ground, as evidenced in the phone shot by the white fogbow patch left to the Suosiola plant.

Railway station -20 C, Apukka -23 C.
